WHITE PAPER - CARAMELO COIN (CARAMELO)

Executive Summary

Caramelo Coin (CARAMELO) is a Brazilian memecoin created with the purpose of transforming the lives of stray dogs, especially the popular "caramelo" dogs, true icons of Brazil. This deflationary cryptocurrency, built on a decentralized blockchain, aims to support NGOs that work tirelessly to rescue, feed, and provide homes for vulnerable dogs. More than just a digital currency, Caramelo Coin is a movement of empathy and love for animals, combining technology, charity, and Brazilian culture.

Vision and Purpose

The main objective of Caramelo Coin is to promote animal welfare, especially for the caramelo dogs, by directly supporting organizations and initiatives that care for these abandoned animals. Every transaction made with Caramelo Coin not only moves the network but also allocates part of the resources to NGOs and campaigns dedicated to rescuing, providing veterinary care, feeding, and promoting adoptions.

The Caramelo Dog: A Symbol of Resilience

In Brazil, the caramelo dog is a symbol of loyalty and resilience. Found in all regions, the mixed-breed caramelo dog represents the tenderness and endurance of dogs that are often abandoned. Inspired by this national icon, Caramelo Coin was created with the mission to provide dignity and a second chance to these animals, who have captured the hearts of many.

The Technology Behind Caramelo Coin

Caramelo Coin is an open-source cryptocurrency based on blockchain technology, ensuring security, transparency, and decentralization. The blockchain chosen for Caramelo Coin enables fast and secure transactions and is designed to minimize environmental impact by adopting an efficient validation system.

 CARAMELO COIN

Technical Characteristics:

Maximum Supply: 400 quadrillion tokens

Deflationary: The supply of tokens will decrease over time through a burning mechanism in each transaction, increasing the value of the remaining tokens.

Open Source: The project is open source, ensuring transparency and allowing the community to participate in the continuous development of the coin.

Name: Caramelo Coin

Symbol: CARAMELO

Rede: Binance Smart Chain (BSC)

Decimals: 9

Taxas: 5% Holders | 5% Liquidez

How Caramelo Coin Works

Each time a user makes a transaction with Caramelo Coin, a small percentage of that transaction is automatically directed to partner NGOs, which use the resources to feed, care for, and promote the adoption of stray dogs. This model ensures that while the coin circulates, it also generates positive social impact.

Key Features:

1. Charitable Transactions: A portion of the transaction fees is directly allocated to animal support projects.

2. Automatic Deflation: A percentage of the tokens is burned with each transaction, creating a deflationary mechanism designed to increase the value of the remaining tokens over time.

3. Transparency: All donations and transactions are visible on the blockchain, allowing supporters to see exactly how their contributions are helping vulnerable dogs.

Social Impact

Caramelo Coin is rooted in positive social impact, transforming how people interact with cryptocurrencies and how they can contribute to noble causes. By acquiring and transacting with Caramelo Coin, users automatically fund charity actions, directing help to where it's needed most — the NGOs that care for vulnerable dogs. This model uniquely combines philanthropy and finance, making it easy for anyone to support a good cause simply by using the coin.

Benefits for NGOs:

• **Ongoing Support:** Recurring revenue from transactions made with Caramelo Coin.

• **Cost Reduction:** Transparency and ease in receiving donations without financial intermediaries.

• **Community Engagement:** Increases the visibility of partner NGOs and encourages participation from new volunteers and donors.

Token Distribution

The total supply of Caramelo Coin will be 400 quadrillion tokens. The distribution is designed to ensure the sustainability of the project and incentivize the participation of the community and NGOs:

• **50% - Community and Engagement**: Distributed through adoption campaigns and incentives to use the coin.

• **10% - Development and Infrastructure**: To maintain the network running efficiently and sustainably.

• **20% - NGOs and Social Initiatives**: Directed to support partner NGOs directly.

• **20% - Team and Advisors**: To compensate the founding team and ensure the continuity of the project.

Governance and Community Participation

Caramelo Coin will be governed by a decentralized model, where token holders can vote on key decisions for the future of the project. This includes changes to the protocol, partnerships with new NGOs, and adjustments to the coin's economic model. The community will be at the heart of governance, ensuring that the project remains aligned with its core values of charity, inclusion, and empathy.

Conclusion

Caramelo Coin is much more than just a memecoin — it is a coin with a purpose, created to make a difference in the lives of caramelo dogs and other vulnerable animals in Brazil. By combining blockchain technology with a strong social movement, Caramelo Coin brings a new way to use cryptocurrencies, where every transaction can change a life.
